SUMMARY

I am an Information Technology graduate with knowledge and experience in administrative support and office tasks. I am proficient in Google Workspace applications and have a background in programming. I am detail-oriented, organized, reliable, and eager to learn new tools and technologies to support business operations and improve productivity.

WORK EXPERIENCE

Intern – System Developer / Administrative Support **Feb 2026 - May 2026**
LGU Santa Elena Camarines Norte - Human Resource Management Office

- Developed an offline database system for the Human Resource Management Office.
- Designed modules for managing employee records and HR information.
- Encoded and entered employee data into the developed system.
- Tested and debugged the system to ensure proper functionality and reliability.
- Assisted in organizing and updating employee records.

Freelance Web Developer

- **Parish Appointment System** **Nov 2024 - Nov 2025**
  - Built an online appointment booking system with date and time selection.
  - Implemented appointment status tracking (pending, approved).
  - Developed a secretary panel for managing schedules and parish records.
- **Senior High School Management System** **Oct 2024 - Nov 2025**
  - Developed modules for student records, subjects, and grade management.
  - Implemented role-based access for administrators, teachers, parents and students.
  - Designed dashboards to display academic data clearly and efficiently.

PROJECT

Learning Interactive Tool for Teaching Children with Autism Spectrum Disorder with IoT **Jan 2025 - Dec 2025**
University of Camarines Norte

- Developed an interactive learning system controlled through an IoT device.
- Designed button-based interactions suitable for verbal and non-verbal children.
- Implemented progress tracking for lessons and activities in the system.
